

Dear Fortis Solutions Group Customer:

As you know, Fortis Solutions Group is a custom manufacturer of printed packaging for thousands of customers across the country. Our product offerings include pressure-sensitive labels, shrink sleeves, flexible packaging, folding cartons, and label applicators. We currently employ over 750 employees across 13 facilities. We supply products to many of the nation's leading brands.

Given our importance to the nation's supply chain, the U.S. Government has determined Fortis qualifies as an 'essential' business during the current 'Shelter In Place' order.

Fortis intends to keep its operations open while continuing to follow CDC-recommended guidelines to ensure the well-being of our employees.

We look forward to working with you during this unprecedented period. Should you have any questions or concerns, please don't hesitate to contact your customer relations or salesperson.

## Questions or Concerns
