

INNOVATIVE, CUSTOMER FOCUSED

Packaging Solutions

REDUCING WASTE. REIMAGINING LABELS.

**EVERY LABEL HAS A STORY.
LET US HELP MAKE YOURS A SUSTAINABLE ONE.**

Every product you pick up from fresh food to cosmetics to household goods—has a label. And behind every one of those labels is a release liner that's discarded after application.

Traditionally, these liners end up in landfills or incinerators. But at Fortis Solutions Group, we believe that story can end differently.

DRIVING CHANGE THROUGH INNOVATION

At Fortis, we're committed to reshaping the discard of release liners into an opportunity. That's why we're constantly exploring multiple liner waste reduction strategies, including:

- Using thinner liners to reduce material usage and increase labels per roll by up to 15%
- Partnering with top suppliers offering circular liner recycling programs
- Connecting customers to collection solutions that divert liner waste from landfills

*Let's work together to close
the loop on packaging waste.*

JOIN THE MOVEMENT

We're actively working to make it easier for our customers to recycle their label waste. Ask how our team can guide you through available options.

Switching to more sustainable label constructions

Enrolling in an existing supplier recycling program

Reducing waste through smarter roll utilization
